1. At 10 a.m. on 27 December 1952, the Soviet minesweeper [] was sighted on 25X1 the way to Swinemunde near buoy 4 of the swept channel Swinemunde-West.

[] came from the direction of Swinemunde and near buoy 4 altered course 25X1 to 270 degrees. Minesweeping equipment was not seen on her deck. A vessel 25X1

[] put out from Swinemunde at noon. Two other vessels of this type 25X1

[] were berthed close behind the harbor entrance on 25X1 the west side of the east jetty. Four [] type vessels [] 25X1

[] lay in two pairs on the east side off Osterthafen. Twelve PT 25X1

boats [] berthed in four groups 25X1

of three, and [] converted steam trawler, which was painted gray and 25X1

flew the war ensign, were also seen in Osterthafen. No armament was seen 25X1

aboard the trawler.

2. A red brick building was about 30 to 40 meters from the west shore at the 25X1 first sharp bend on the west side of the navigable channel. Shells of an estimated

caliber between 200 and 250 mm which had no cartridge cases were piled up in 25X1

three layers about five meters long on the south side of this building. Two 25X1

cranes were in front of the building. Under one of these cranes lay a Soviet 25X1

ship []

was about 300 GRT, had a black hull, a gray funnel, two hatches and had her machinery aft, which loaded or unloaded boxes, about 1.5 meters long. About

15 persons who wore dark blue uniforms with golden epaulets and blue visor-

type caps were near the hatches and on the quay.²

25X1A

2. [] Comment. The information fails to indicate the exact location of the brick building near which the artillery ammunition was stored. The building probably was the former mine and barrage depot of the German Navy, rather than the former Ruetgers Shipyard, which is located in the Friedrichsthaler Forst (Friedrichsthal woods). It is believed that the cargo was "...".
